SUMMARY

Fullstack developer with 4+ years of experience building and maintaining production web applications using Laravel and Vue.js. Comfortable owning a feature end-to-end, from database design and REST APIs to responsive front-end interfaces and server deployment. Experienced managing production infrastructure serving over one million users, and building government-facing systems used in real operations.

EXPERIENCE

Fullstack Developer - PT. Kreasi Putra Hotama (Jan 2026 - Present)

- Maintained and optimized the Qara'a system in production, a quran learning platform with 1M+ registered users and more than 1.7K daily active users, peaking at 3K, tuning the application and Vultr VPS infrastructure to handle that load reliably.
- Built SiUPIN (Sistem Informasi Unit Pengolahan Hasil Peternakan Indonesia) for Indonesia's Ministry of Agriculture end-to-end, developing Laravel REST APIs on the backend and Nuxt interfaces on the frontend.
- Designed and shipped RESTful APIs consumed by 14 client-facing projects, covering authentication, data validation, and business logic.
- Wrote automated tests with PHPUnit and Pest, and used Git-based workflows to keep releases stable across a small cross-functional team.
- Managed Linux servers (Nginx, Vultr VPS) for deployment, monitoring, and performance tuning of live applications.

Back-end Developer - PT. Kreasi Putra Hotama (Jun 2021 - Dec 2025)

- Built and maintained Laravel back-end services and MySQL data models for internal business applications.
- Optimized database queries and API endpoints, improving reliability and response times for production traffic.
- Collaborated with cross-functional teams to translate project requirements into working software.

Web Developer Intern (Laravel) - PT. Winnicode Garuda Teknologi (Sep 2024 - Dec 2024)

- Built a Laravel news portal and admin panel in a five-person team (github.com/imsyfq/portal-berita).
- Applied MVC architecture, Git collaboration, and XSS, CSRF and SQL injection prevention.
- Graded A (Sangat Baik Sekali). Certificate: winnicode.com/sertifikat/WINNI-MG-2024-792372AA

English Teaching Assistant - Pontianak State Polytechnic (May 2024 - Oct 2024)

- Prepared and taught a semester of English classes, building the materials and weekly learning plan.

PERSONAL PROJECTS

Linker - Link Sharing API (github.com/tb12as/linker | link.syfq.my.id)

- Built a public short-link REST API with token-based auth, using Laravel, Vue.js, and Tailwind CSS.
- Set up automated testing (PHPUnit) and CI/CD with GitHub Actions, and deployed the live service independently.

SKILLS

Languages: PHP, JavaScript, TypeScript, Go, C#

Frameworks: Laravel, Vue.js, Tailwind CSS, React, Nuxt, .Net

Backend and APIs: REST API, OAuth, JWT, WebSocket

Databases: MySQL, PostgreSQL, Redis

Infrastructure: Git, Docker, Nginx, Linux, CI/CD, Vultr VPS

Testing: PHPUnit, Pest

Tools: VS Code, Zed, Claude (AI-assisted development)

EDUCATION

Diploma III (D3) in Informatics Engineering - Pontianak State Polytechnic

Graduated Sep 2025. GPA 3.74

Vocational High School Diploma, Software Engineering - SMK N 7 Pontianak

Graduated Mar 2021
